

Coursework 2 - starter  
/Coursework 2 - starter  
/include/Bridge.h

```
graph BT; A["Coursework 2 - starter  
/Coursework 2 - starter  
/include/Game.h"] --> B["Coursework 2 - starter  
/Coursework 2 - starter  
/include/Bridge.h"]
```

A diagram showing a dependency between two files. A white box at the bottom points via a blue arrow to a grey box at the top. Both boxes contain the same directory path: 'Coursework 2 - starter / Coursework 2 - starter / include /'. The top box points to 'Bridge.h' and the bottom box points to 'Game.h'.
